"THERE IS A FINE LINE SEPARATING SUCCESS FROM FAILURE, IT IS UP TO YOU TO CHOOSE WHICH SIDE TO BE ON."

ABOUT ME

Developer with more than three years of experience with Java and PL/SQL for back-end and HTML, CSS and JavaScript for front-end. Familiar with the OOP and MVC designs patterns. Projects development using frameworks such as Struts and Spring. Responsible for the development and testing of improvements through the use of own and JUnit libraries. Familiar with the use of AGILE methodologies, more specific in the use of SCRUM.

WORK EXPERIENCE

NOVEMBER 2018 - SEPTEMBER 2019

Back-End Developer at Recreativos Franco, S.A.

- Pure Back-end development with Java.
- Development of the logic of slot type machines present in casinos and bars.
- Use of microservices.
- Version control using CVS.
- Development, testing and maintenance of the quality of developments and improvements through the creation of unit tests using the JUnit framework.

MAY 2018 - NOVEMBER 2018

Web Applications Developer at Worldline Iberia, S.A.

- Back-end development using concepts such as Bean and DAO with Java as the intermediate language and Oracle's PL/SQL as a DB language.
- Use of iBATIS framework, which associates model objects (JavaBeans) with SQL statements or stored procedures using XML descriptor files, simplifying the use of databases.
- Creation and maintenance of PL/SQL scripts.
- Testing of coding modifications and assisted with application and system testing to minimize errors and downtime.
- Design, development and maintenance of data extraction and transformation processes and ensured that data is properly loaded and extracted in and out of our systems.
- Front-end development with HTML, CSS and JavaScript using JSP technology.
- Use of own libraries and JSTL for the dynamic generation of web content.
- Creation and coding of RESTful web services.
- Creation of WSDL interfaces and coding of SOAP web services.
- Development using MVC patterns with Struts.
- Development using Spring framework for dependency injection.
- Version control using CVS.
- Development, testing and maintenance of the quality of developments and improvements through the creation of unit tests using the JUnit framework.

MARCH 2017 - MAY 2018

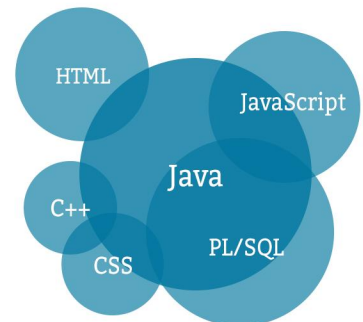

Full Stack Developer at Alerce Informática Aplicada, S.A.

- Back-end development using concepts such as Bean and DAO with Java as the intermediate language and Oracle's PL/SQL as a DB language.
- Development of complex database objects like stored procedures, functions, packages and triggers using SQL and PL/SQL.
- Creation and maintenance of PL/SQL scripts.
- Knowledge in developing Oracle PL/SQL packages and object types.
- Testing of coding modifications and assisted with application and system testing to minimize errors and downtime.
- Design, development and maintenance of data extraction and transformation processes and ensured that data is properly loaded and extracted in and out of our systems.
- Front-end development with HTML, CSS and JavaScript using JSP technology.
- Use of own libraries and JSTL for the dynamic generation of web content.
- Creation of XML and XSD files for the correct validation and generation in the upload of files by the clients.
- Creation and coding of RESTful Web Services.
- Dependency control using Maven.

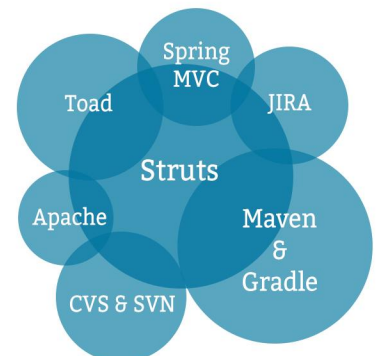

SKILLS

- PROGRAMMING LANGUAGES -

- FRAMEWORKS & TOOLS -

LANGUAGES

✓ Spanish
Mother tongue

✓ English
Good knowledge
(B2 - C1 Level).

PROFESSIONAL SKILLS

TEAMWORK	+++++
INITIATIVE	+++
ADAPTABILITY	++++
MOTIVATION	+++++

WORK EXPERIENCE

- Development using MVC patterns with Struts.
- Version control using Apache Subversion.
- Task management using JIRA.
- Continuous code quality using SonarQube.
- Development, testing and maintenance of quality of developments and improvements before preproduction releases.

JULY 2016 - MARCH 2017

PL/SQL and Java Developer at GFT IT Consulting, S.L.

- Back-end development using concepts such as Bean and DAO with Java as the intermediate language and Oracle's PL/SQL as a database language.
- Development of complex database objects like stored procedures, functions, packages and triggers using SQL and PL/SQL.
- Creation and maintenance of PL/SQL scripts.
- Dependency control using Maven.
- Development using MVC patterns with Struts.
- Version control using Plastic SCM.
- Drafting of technical documentation.
- Perform unit, automatic and integration tests.

APRIL 2016 - JUNE 2016

Junior Developer at Altin Solutions, S.L.

- Business Intelligence and Performance Management using INFOR tools.
- Management and conversion of customers relational databases in multidimensional databases using the OLAP cube concept.

JULY 2011 - MAY 2014

Customer Advisor at Phone House Spain, S.L.U.

- Processing and management of communication services for individuals, self-employed and businesses. Support and deal with customers.

JULY 2008 - AUGUST 2008

Windows Technical Support at Thales Group Spain

- Installation of the company's own program on workers personal computers, with the subsequent configuration and support.

EDUCATION

2016

High-Level Technical Degree in Multi-platform Applications Development

Lázaro Cárdenas High School, Collado Villalba, Madrid

- Configure and exploit computer systems, adapting the logical configuration of the system according to the needs of use and the established criteria.
- Manage databases, interpreting their logical design and verifying integrity, consistency, security and accessibility of the data.
- Develop cross-platform applications with access to databases using appropriate languages, libraries and tools according to specifications.
- Develop interactive and usable graphical user interfaces, using standard visual components or implementing specific visual components.
- Develop multi-threaded applications using specific libraries and programming techniques.
- Participate in the implementation of ERP-CRM systems evaluating the usefulness of each of its modules.
- Manage information stored in ERP-CRM systems guaranteeing its integrity.
- Develop customized components for an ERP-CRM system according to the requirements.

2007 - 2010

Bachelor of Science Degree in Computer Engineering (Up to second course)

Polytechnic University, Madrid

2007

Secondary School in Science and Technology

Menesiano School, Madrid

INTERESTS

iOS

Spring Boot

Android

MongoDB

AngularJS

PHP

Bootstrap

OTHER LANGUAGES & TOOLS STUDIED

C++, MYSQL, ANDROID
